

History

By Jennifer Kefalas

This semester the grade 5/6 areas have been focussing on History. In the middle of term 2 we will do a play. Group A's topic is law enforcement, Indigenous people and Convicts my group will be playing one of the topics which I will talk more about later.

Top 3 facts that we have learnt:

Fact1: If you stole a loaf of bread you will get put in prison and when the prisons were full you will get put on a ship and you will be a convict.

Fact2: Did you know that 1/3 of the Aboriginal people died because of the diseases the English man brought from new Holland.

Fact3: This is a good fact, the first policeman were convicts because they were the only people in Australia.

My favourite part of the project:

My favourite part of the project is the script writing, that is so much fun. I also like to research the history of Australia but I think my favourite part will be acting all the fun things we have researched.

Where are we going with this project?

We are making a play so the 5/6 area has been split up into A, B, C, D then in A, B, C and D we got split up into 3 groups I am in A so I will be doing either Convicts, Law enforcement or Indigenous people. I can't wait. I just found out that I am a convict I got put as the leader of the group I can't wait to perform and wear baggy clothes it will be so much fun!

Make sure you are going to come to the play it is going to be great and I hope you learned something.
