

The play

By Joseph De Los Santos Myles

For the first semester the grade 5/6s are going to be making a play about the history of Australia. I'm in group A and we are focusing on Indigenous, Law enforcement and Convicts. I think that all of those groups are very good and I will be happy with whatever I get. But first we have to learn about them or else we won't know what we are doing the play about!

Things we've learned

Something that I've learned is that some of the convicts that came to Australia were very young.

I also learned that Australia's first police force was made up of the convicts that were well behaved.
